

WHERE ARE THEY NOW?

Over the years and throughout WWE's trailblazing history, the **World Wrestling Entertainment** Corporation has provided fans around the globe with stuff and footage that left their unparalleled mark amongst the WWE Universe. Fans in every country were bestowed with both the honor and the privilege to witness moments filled with either drama, high-pitched emotions, authentic actions, physical combats, verbal trench warfare or sequences that helped to shape the landscape of **WWE** forever and simultaneously paved the way for consecutive scenarios. More and more moments, next to the action-loaded star power within **WWE's weekly shows** – Monday Night **RAW**, Tuesday Night's **SmackDown Live**, just to name a few – helped to propel the Wrestling company by inserting an entertaining component in their weekly program. While their hallmark undeniably is, the intense exchange of physicality, the WWE also enabled to introduce an entertaining component within. The **WWE Slammy Awards!** These highly prestige accolades served both as an unique way to honor **WWE Superstars** for the way they contributed to the course of its history and on the other hand side, they were a beneficial medium to offer the fans a helpful **retrospect**, so that they could remember back to moments that happened throughout the year. Usually the WWE used to air their **Oscar-like event** every year before **New Year's Eve**, but all by the sudden this sincerely admired program disappeared into the oblivion and was avoided to be produced last year. Fans certainly wondered, if WWE had some doubts concerning their hugely successful **awards show** or if there were some other unknown complications, why WWE was declaring farewell to the **Slammy Awards?** Since the year – much like WWE's program – is moving right to the **end of 2017**, the question on if the Slammy Awards are getting their highly anticipated **re-debut** is reaching their frequency once again. But since WWE has not uttered any sign of rumor that they might or might not come back, we can just pray that the administrators re-discover sense in this beloved project, listen to their fans when asking: 'WHERE ARE THEY NOW?' and re-award us with the show that is indispensable for the future embossment of the WWE!
